

The diagram illustrates a complex assembly consisting of several vertical sections. On the far left, a narrow column contains a grid of small squares (labeled 1) and a single rectangular block (labeled 12). To its right is another narrow column with horizontal lines (labeled 13) and a larger rectangular block (labeled 24). The central part of the diagram features a large area filled with numerous horizontal lines, representing a dense array of components or layers. A thick vertical bar runs along the right edge of this central section. On the far right, there are two more distinct vertical elements: a thin column with horizontal lines and a wider column with a grid pattern.
